

## Part Four Preparing to Serve

Chrestos students graduating after four years of study

Chrestos Graduates 2008, 2009, 2010.

Those who stay on our staff after graduation are encouraged to be conscientious in their work, and also to pursue further studies part-time, according to their interest and abilities. This is not only for their own benefit, but in order that they can help, and provide for their own people.
