

Part Seven The Home of Peace and Joy

In 2007 Chrestos was offered a large sum of money to fund an orphanage. We opened the Home of Peace and Joy in April 2008 with twenty-three boys between the ages of five and fourteen. The number of boys increased in 2009 to thirty-two. They are cared for by four of our graduates, two men and two women, and go to a local Thai school. We have received very good reports from their school. They are growing rapidly and thriving on the love and care that they are receiving from our staff there.
